Carbon Footprint Report

Username: SM

Module: Individual

CompanyName: SanSal

Year: 2024

avg_europe: 5200.0

Results:

Energy: 1396.42 KgCO2

Waste: 355.20 KgCO2

Travel: 7700.00 KgCO2

Total: 9451.62 KgCO2

Feedback:

Bad/Negative Result:

Your carbon footprint is above the European average, but small changes can help!

Try adopting sustainable practices in energy, waste, and travel to lower your impact.

Energy:

- Switch to energy-efficient appliances and consider renewable options like solar panels.

- Improve home insulation to cut down on heating and cooling needs.

- Unplug devices when not in use to save energy.

Waste:

- Try composting organic waste and using reusable bags to reduce single-use plastics.

- Join a recycling program to ensure proper waste processing.

- Donate items you no longer need instead of discarding them.
